

COVID-19 INTERIM EXCLUSION GUIDANCE¹

Decision Tree for Symptomatic Individuals in Pre-K, K-12 Schools and Day Care Programs

Send home or deny entry (and provide remote instruction) if ANY of the following symptoms² are present: Fever (100.4°F or higher), new onset of moderate to severe headache, shortness of breath, new cough, sore throat, vomiting, diarrhea, new loss of sense of taste or smell, fatigue from unknown cause, muscle or body aches from unknown cause.

Medical Evaluation and Testing are Strongly Recommended for ALL Persons with COVID-Like Symptoms.

Status	Evaluated by Healthcare Provider	Return to School Guidance	Quarantine for Close Contacts?	Documentation Required to Return to School
A. COVID-19 diagnostic test Positive (confirmed case) OR COVID-like symptoms without COVID-19 testing and exposed to confirmed case (probable case)	YES / NO	<u>Stay home</u> at least ten ³ calendar days from onset of symptoms AND for 24 hours with no fever (without fever-reducing medication) AND improvement of symptoms.	YES	Release from Isolation letter (if received from their LHD) provided by the parent/guardian or staff person, notification via phone, secure email or fax from the LHD to the school, OR other process implemented by your LHD
B. Symptomatic individual with a negative COVID-19 diagnostic test <i>Negative COVID-19 diagnostic tests are valid only for the date on which they are collected; specimens collected 48 hours prior to symptom onset, after symptom onset, or while symptoms are present are acceptable for determining school exclusion status.</i>	YES / NO	<u>Stay home</u> until symptoms have improved/resolved per return-to-school criteria for diagnosed condition ⁴ . Follow provider directions, recommended treatment & return to school guidance as per school policies and IDPH Communicable Diseases in Schools .	NO	If staff/student is a close contact to a confirmed case, the school is experiencing an outbreak, or the LHD is requiring validation due to community transmission levels, documentation of a negative RT-PCR COVID-19 test result is needed. In other situations, a negative RT-PCR, rapid molecular (rapid PCR) or negative antigen test is acceptable.
C. Symptomatic individual with an alternative diagnosis <u>without</u> a negative COVID-19 diagnostic test	YES	<u>Stay home</u> until symptoms have improved/resolved per return-to-school criteria for diagnosed condition ⁴ . Follow provider directions, recommended treatment & return to school guidance as per school policies and IDPH Communicable Diseases in Schools .	NO	If testing is not performed due to the clinical judgment of the healthcare provider, a medical note is needed to return to school/day care documenting that there is no clinical suspicion for COVID-19 infection and indicate an alternative diagnosis with exclusion consistent with this diagnosis
D. Symptomatic individual without diagnostic testing or clinical evaluation <i>Individuals may move to Columns A, B, or C based on results of diagnostic testing and/or clinical evaluation.</i>	NO	<u>Stay home</u> at least ten ³ calendar days from onset of symptoms AND for 24 hours with no fever (without fever-reducing medication) AND improvement of symptoms.	Household Member (e.g., Siblings, Parent) ⁵	After the ten-day exclusion, a note from parent/guardian documenting that the ill student and/or household contacts are afebrile without fever-reducing medication and symptoms have improved
E. Asymptomatic individual who is a close contact⁶ to a confirmed or probable COVID-19 case	NO	Unless fully vaccinated, stay home for 7-14 calendar days ^{7,8} after last exposure to the COVID-19 case. Local health departments must authorize early release from quarantine. <i>If COVID-19 illness develops, use the ten-day isolation period³ guidance for a COVID-19 case from the onset date. Testing is recommended.</i>	NA	Release from Quarantine letter (if received from their LHD) and negative PCR lab result if applicable ^{7,8} provided by the parent/guardian or staff member, LHD notification via phone, secure email or fax to the school OR other process implemented by your LHD

1 Based on available data and science, schools must make local decisions informed by local context in consultation with their local public health department. This chart should be used in conjunction with the [Public Health Interim Guidance for Pre-K-12 Schools and Day Care Programs¹ for Addressing COVID-19](#).
 2 New onset of a symptom not attributed to allergies or a pre-existing condition.
 3 Severely immunocompromised or severely ill: may need to isolate for 20 days as per guidance from the individual's infectious disease physician.

4 If the individual has been identified by public health for quarantine or knows they are a close contact to a case, the quarantine period must be completed.
 5 Consider quarantine for other close contacts if there was poor adherence to social distancing or use of face coverings.
 6 Contacts to close contacts of a case do not need to be excluded unless the close contact becomes a confirmed or probable case.
 7 Quarantine options: Complete a. 14 days, OR b. 10 days with no symptoms, OR c. –for ADULT STAFF ONLY: 7 days with no symptoms and a negative SARS-CoV-2 RT-PCR test. Specimen for testing must be obtained within 48 hours of Day 7. Last exposure date = Day 0. See <https://www.cdc.gov/coronavirus/2019-ncov/more/scientific-brief-options-to-reduce-quarantine.html>
 8 Molecular testing (PCR) is recommended for individuals ending quarantine at Day 10 after exposure; may be required by LHD.
